SMART
BOOSTER

4K
Ultra HD Unterstützung

Benefit now from this loyalty offer when buying a new Casablanca 4 Studio and save \$300 on the hardware, and at least \$300 on the software (until August 31, 2016). In addition, you get the Bogart 8 Gold Edition, Arabesk 6, Arabesk 7 (when available), Fonts Packs 1, 2, 3, 4, HD Backup Sentry, and Windows 10 Pro 64 bit with the Media Center. Plus get a 50% discount on all second licenses. You keep your existing machine and software, and if the SW is available on Bogart Windows, buy it for 50% Off.

- Intel i5 Quad-Core Processor with Quick Sync Video and Smart Booster Technology! This means less waiting for rendering when working with 4K Ultra HD and Full 2K HD.
- 1 Tb Hard Drive for large video files.
- More speed and performance with 4Gb Ram and two 6-pin Firewire connectors. If you need composite or component analog video input and output, it is a \$349 option.
- 1 Blu-Ray & DVD combo reader/writer, so you can burn either format.
- 3 Display outputs so you can run in dual monitor mode with either HDMI, DVI, or VGA.
- A convenient Multi Card reader makes video imports and exports quick and easy.
- It even comes with a front Mic input for doing those creative voice overs.
- It has a Ethernet connection, if you want a wireless adapter, it is a \$49 option.
- The matching white Desktop, Keyboard and Mouse are attractive in any Studio. If you prefer the Logitech trackball, it is a \$49 option.

The Studio Pro is \$1200 more than this Studio, but most of that cost is for speedy hardware. If you have the time to wait for 2K & 4K renders, this is almost the identical machine. Just 1 less hard drive, burner, and SW. You can use unlimited external hard drives with the optional Disk Juggler. For more information contact your VAR:
