## Recent Smart Edit OS Upgrades & Standard Definition Editing

You have likely heard that beginning with the Smart Edit 5 Operating System, Casablanca editors can enjoy the higher resolution of 1080i HDV (High Definition Video) editing. Many of our customers continue to edit in the SD (Standard Definition) mode, whether it is the traditional 4:3 or the new wide-screen (16:9) modes. We want you to know that a huge percentage of the new benefits in the recent Smart Edit OS upgrades pertain to SD editing - here are the highlights – see our website for full details and screen shots:

### Smart Edit 7 - New Standard Definition Benefits

- \* **Enhanced VGA display modes** (for higher resolution monitors)
- \* **New Choices in Trim, Split and Insert Menus**
- \* **Titler Enhancements** (softer fonts and blurring drop-shadow buttons)
- \* **Supercharged Photo recording**
- \* **All-New Stop-motion & Time Lapse Recording Tool**
- \* **Automatic transition FX insert & remove tool**
- \* **Original DV time-code for video playback**
- \* **Select the Reference Scene for your Scene icons**
- \* **Group-Function for scenes in the scene bin**
- \* **Enhanced FX Preview modes**

### Smart Edit 6 - Review of Standard Definition Benefits

*If you have not yet installed Smart Edit 6, here are the additional benefits you will add to your Casablanca. These Smart Edit 6 features are also included in Smart Edit 7*

- \* **Archival of your Storyboard** (to Firewire Hard Drive, DVD or DV Tape)
- \* **Importing video from Arabesk authored DVD** (into your Scene Bin!)
- \* **Text import into Titler Menu** (from CD or USB jump drive)
- \* **Saving and Restoring Casablanca Custom Archives**
- \* **30 Project Folders** (from 10 folders to 30)
- \* **Scene option to replace in Storyboard and Scene Bin at the same time!**
- \* **Checkmark for multiple item access** (in the Clipboard, CD import & other menus)

### Smart Edit 5 - Review of Standard Definition Benefits

*If you have not yet installed Smart Edit 5, here are the additional benefits you will add to your Casablanca. These Smart Edit 5 features are also included in Smart Edit 7 and Smart Edit 6.*

- \* **Edit to the Beat** (automatically trims scenes to fit your cut audio!)
- \* **Export Audio to CD** (back-up audio samples & create CDs for customers)
